

Current US Install Base

- Order activity since November 2022 (conception of Shopify store)
- [several] clients do NOT own Intensif or FSR HPs, thus, difficult to assess activity
- Current Strategies in Place:
 - Trade In & Save Opportunities
 - Clients can recoup a portion of their initial device value by trading in and upgrading to the PRO MAX.
 - Marketing & Post-Sales Support
 - Expanding digital support tools and marketing materials through online “client portal” in 2026.

Re-Engagement Strategies

➔ Expanded Virtual Training + Consumable Offers

- RFM-targeted **win-back campaigns** (prioritize Dormant/At Risk/Gen1 Tip Customers) with quick surveys for **personalized offers**
- Tips + Free Virtual Training bundles or time-sensitive offers (free shipping/1st reorder = [promotional] offers)
- **Recurring Revenue:** auto-ship orders (3-6mo) + tiered loyalty program (points → training/support/credits)

➔ Clinically-Focused Content with KOLs

- Indication-focused webinars + ROI-based content + refreshed B&A/training library
- KOL testimonials/live demos for social proof as digital touchpoints
- **Retargeting:** short clinical videos → quick survey → personalized offers → Shopify store reordering

➔ Install-Base Check-Ins

- Annual/semi-annual install base reviews (validate ownership + identify inactive users)
- Omnichannel marketing: mailers + follow-up calls for non-responders
- Partnerships + referrals: cross-promotions, incentives for re-engaged clinics bringing new accounts
